2020 Design Users

Do not use this form as a cover sheet for 2020/Design Flex standard reports (Item List, Quote, etc). Instead, please download the *W. W. Wood Products Order Form* specifically customized for our product lines for installation and use in *2020/Design Flex*. Once installed in *2020/Design Flex*, the *W. W. Wood Products Order Form* creates one single document that can be submitted as an order without the need for a separate cover sheet, avoiding potential conflicting information. Download our *W. W. Wood Products Order Form* and its tutorial video from our *Customer Portal* under *Resources*. Or, email 2020catalogs@wwinc.com for assistance.
